Digital Nurture

Dear All,

We have revised the **WEBINAR & MICRO CERTIFICATION schedule** to help the students master the competencies in scope at a faster pace.

Henceforth all students who **complete the learning modules 6 hours before** the scheduled time will be eligible to take up the respective micro certification in the scheduled slot (as against the 48 hrs. which is currently followed), provided they have attempted micro certifications of the previous modules.

Students need not wait any longer for Micro Certification eligibility mail trigger, instead they can refer to "**My Assessment**" tab in the Tekstac Dashboard as shown below, **2 hours before the scheduled slot** to know if they are eligible to take up the assessment. The eligible assessments will be available in On-Going/Upcoming tab.

Also the students are recommended to refer to the **demo video** that briefs on **Taking Up Micro Certification** in FAQ Section, before they attempt the micro certification.

Hope to see each student make the best use of this and plan their learning completion.

** Note: There will be only 5 occurrences for every Micro Certification. Kindly plan and complete the reattempts within the available occurrences.
